Dear Mr. Eisenhart,

Thank you for letting me know
about accomodation in the Graduate School.

Would you be so kind as to engage for me one of
the suites you described.

I shall be reaching Princeton late in
September or early in October. Can the
question of enrolment be left until I arrive?

Please excuse my delay in writing. I have
been waiting for some news which might have
affected my plans appreciably, and which

has been unexpectedly long in arriving.

Yours sincerely

A. M. Turing

PRINCETON UNIVERSITY
THE GRADUATE SCHOOL

APPLICATION FOR ADMISSION

DATE

DEPARTMENT OF PROPOSED STUDY

NAME OF APPLICANT IN FULL (block letters):

..... Alan Mathison Turing

PRESENT POST OFFICE ADDRESS:

..... 38

PERMANENT OR HOME ADDRESS:

.....

APPLICATION FOR FELLOWSHIP OR SCHOLARSHIP

All applications for Fellowships and Scholarships must be received in the Office of the Graduate School by March 1.

Ordinarily the fellowships and junior fellowships are awarded to men who have had a year or more of graduate study in a graduate school, and the scholarships, carrying free tuition, to men who have not had such study. If a candidate, in answering the first question below, indicates that he wishes to be considered only for a fellowship, it will be the understanding of this office that he does not wish to be considered for a scholarship, if a fellowship is not available.

State whether you are hereby applying for either a Fellowship or a Scholarship?

If you are applying elsewhere also, give the names of the institutions:

.....
This information will not prejudice the consideration of this application at Princeton.

Date and place of birth:

Name and address of parent or nearest relative:

.....
.....

Condition of general health

of eyesight, of hearing

Colleges or universities attended, with period of attendance at each, and degrees received, with dates: (For example: Haverford College 1927-1931, A.B. 1931; University of Chicago 1931-1932, A.M. 1932).

.....
.....

EXTRACT FROM UNIVERSITY REGULATIONS

1. The total enrolment of graduate students is limited to two hundred and fifty.

All applications for admission to the Graduate School of Princeton University are received subject to whatever provisions may determine the mode of limiting the enrolment of graduate students. Admissions are limited to male students.

2. *In every case admission is granted for not more than one academic year.* An application for readmission is necessary for every subsequent year. All applications for admission and for readmission are considered on or about April 20 of each year, except that those who are awarded Princeton fellowships or scholarships for an academic year are granted admission for that year at the time of the award. An application received after admissions have been determined will be placed on file for consideration in case of a vacancy under the limitation of enrolment. Applications received after June 15 may not be acted upon before the opening of the University in September.

3. A bachelor's degree in distinctively liberal studies, granted by a college or university of recognized standing, is requisite for admission, but is not sufficient of itself. An examination of an applicant's academic record is made to determine whether he has established a strong affirmative case in regard to the character of his general education and his fitness for graduate work in his proposed subject of study. In admissions regard is given to character and promise as well as to scholastic attainment. In every case admission is determined, under the limitation of enrolment, after a comparison of the relative merits of all the candidates who wish to pursue their studies in the same field or department. Acceptance of a bachelor's degree other than one in distinctively liberal studies is allowed only in cases of unusual merit.

Any one admitted to the Princeton Graduate School should, before beginning his graduate study, acquaint himself with the full text of the Regulations as printed in the opening pages of the Official Register of the Graduate School.

Applicants will be notified of the result of their applications as soon as possible after April 25. To those who are admitted will be sent a form on which application may be made for residence in the buildings of the Graduate College.

INFORMATION TO BE SUPPLIED BY EVERY APPLICANT

Submit with this application 2 personal photographs of the size approximately $2\frac{1}{2} \times 2\frac{3}{4}$ and an official transcript of your undergraduate record (including entrance credits and honors conferred), obtained from the proper official of the institution which granted the degree; also an official transcript of graduate work completed, if any.

Submit also a detailed statement of the courses which you have taken in the subject in which you are proposing to do graduate work. The statement about each course should contain a list of the subjects treated in the course (about three lines), the books used, and an indication as to how the course was conducted, whether by lecture, recitation, or a combination of these, or laboratory work, and whether there were regular conferences between you and the instructor in charge. (It is not necessary to supply this information concerning courses taken in Princeton University.)

Give the names (with titles) and addresses of several persons whom you are asking to write intimately and confidentially about your qualifications. The list should include two of your college or university teachers, and the persons most competent to speak of your work in any positions which you have held. Such letters are not necessary in the case of a graduate of Princeton, unless he has carried on studies elsewhere. These personal letters should be sent by the writers directly to the Dean of the Graduate School, and reach him by March 1, if you are applying for a fellowship or graduate scholarship.

.....

.....

.....

.....

.....

.....

.....

FURTHER QUESTIONS TO BE ANSWERED BY EVERY APPLICANT

Single or married?.....(If single, do you expect to change this status before the end of the next academic year?)

If married, or expect to be married before the end of the next academic year, are you prepared to provide for the support of your family next year?

(a) Can you read books in your chosen field of study in French?..... In German?.....

Can you read simple Latin prose?

Since a reading knowledge of French and German is necessary for graduate study as conducted at Princeton, it is important that a candidate acquire such a reading knowledge as quickly as possible. An admitted candidate is expected to take an examination in one of these languages early in the first term. (See catalogue for special departmental regulations concerning language examinations.)

(b) What plan have you for increasing your attainment in these languages before next year if you are not prepared to take an examination in these subjects upon admission?

(c) What foreign languages other than these can you read?

Indicate original work or investigation which you have done, and list with title, date, and place of publication any books or contributions to periodicals.

Indicate, with dates, academic positions you have held, such as fellowships and teaching positions, giving the name of the institution:

Indicate, with dates, business positions you have held, giving the name of the firm:

How many years of graduate study do you now contemplate?

For what degree do you plan to qualify?

To what career do you look forward?

Signature of applicant:

Other documents

When the above questions have been answered, your application should be forwarded to the Dean of the Graduate School, Princeton University, Princeton, New Jersey.

August 4, 1937

My dear Mr. Turing:

Your letter of July 24th has just been received, and I am enclosing herewith a copy of a letter which was sent you on July 8th, but sent to your home address. In case you have already received the original, please destroy the enclosed copy.

With best wishes to you for a very pleasant summer holiday, and looking forward to seeing you at the opening of the University, I am,

Sincerely yours,

Mr. Alan Mathison Turing,
King's College,
Cambridge, England.

September 10, 1936

My dear Mr. Turing:

Your cable has just been received. I am enclosing herewith a copy of my reply which I hope will enable you to get your visa. Dean Eisenhart will not return to Princeton from England until the 18th of this month. However, I am enclosing herewith two letters, stating that you have been granted admission to the Graduate School, which may be of assistance to you in making your arrangements to come to this country.

Sincerely yours,

Secretary to Dean Eisenhart

Mr. A. M. Turing,
8 Ennismore Avenue,
Guildford, England.

3 Encls.

England

Feb. 16. 37

Dear Dear Eisenhower,

Thank you so much for your
kind messages sent to us through Alan.
We were very sorry you weren't able to come
& stay with us last summer - but perhaps
you will do so on another visit to England.

My husband & I are expecting to go
away about the 3rd March - he is
going to Palestine & to be away till
almost the end of May. I feel it is not
quite fair to leave you without the address

of some manifestation in case any unforeseen
emergency should arise in connection with
Alan in which you might need to commu-
nicate with a member of the family. We
shall be so inaccessible that I think it
would be advisable to give you the
address of our elder son, who is a very pleasant
person & a scholar. He is

John F. TURING

NONINGTON

JENNER ROAD

GUILDFORD

He has no telephone.

2.

He would act for us or, if there were time,
get in touch with us if possible.

Please do not mention this letter to
Alan who would undoubtedly regard it
as fussing! Naturally I hope that the
necessity for this address will not arise,
but I feel that without it you might be
put to a great deal of trouble & anxiety.

We are very happy that Alan should
have this splendid opportunity of a year's
study at Yale University. It is a wonder-
ful experience for him.

With kind regards to you all

Yours sincerely

Ethel S. Durning

May 26, 1936

My dear Mr. Turing:

I was interested to hear that you are planning to come to Princeton next year to carry on your studies in Mathematics. There are at present a few unassigned accommodations in the Graduate College, at the price of \$700. a year. This charge covers meals and a suite of study and bedroom and a bath, the latter being shared with the occupant of an adjoining suite, and also the laundry with the exception of personal effects.

The question of the category in which you would be enrolled, and what fees you would be charged, if any, will depend upon your plans and the arrangements you have made to come to Princeton.

Sincerely yours,

A.M. Turing, Esq.,
King's College,
Cambridge, England.

Dear Mr Eisenhart,

The American Consulate in London tells me
that I shall again need a letter in duplicate giving evidence
that I am accepted as a student at Princeton, before I can be
readmitted to the U.S. I should be grateful if you would send
me such letters: it would be convenient if you would mention
at the same time that I have been awarded a Fellowship which
will cover all expenses; this would save my obtaining any other
evidence about finances,

Yours sincerely

A. M. Turing

✓

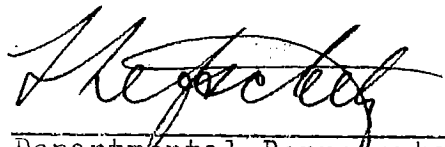

Date May 26, 1937.

Mr. A. M. Turing took the General
Examination given by the Department of Mathematics
on May 25, 1937. In the judgment of
the Department he has sustained the examination.

His principal examiners were: Professors Church, Lefschetz
and Tucker.

Estimate of the quality of performance of the candidate:

Passed an exceedingly good examination in all subjects in which he was
examined.

Departmental Representative.

*If the candidate did not sustain the examination, the Dean of
the Graduate School should be so informed by letter.

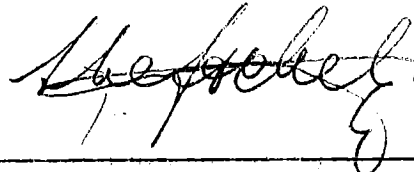

Date May 31, 1938.

Mr. Alan Matison Turing was examined orally
by the Department of Mathematics
on Friday, May 27, 1938. In the judgment of
the Department he has sustained the examination, and is
heroby recommended for the degree of Doctor of Philosophy.*

His principal examiners were: Professors Bohnenblust, Church,
and Lefschetz.

Estimate of the quality of performance of the candidate:

The candidate passed an excellent examination, not only in
the special field of mathematical logic, but also in other fields.

Departmental Representative.

*If the candidate did not sustain the examination, the Dean of
the Graduate School should be so informed by letter.

Date May 18, 1938.

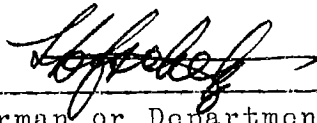

Mr. A. M. Turing presented to the Department of
Mathematics in candidacy for the degree of
Doctor of Philosophy a dissertation with the title:
Systems of logic based on ordinals

Written under the direction of Alonzo Church
The department appointed Professors Alonzo Church
and S. Lefschetz to read this dissertation and,
after consideration of their report, the Department hereby recom-
mends to the Faculty the acceptance of the dissertation.

Estimate of the dissertation:

The thesis is an able and unusual contribution indicative not
only of technical capability but also of considerable insight into the
problems treated and appreciation of their relationship to other questions,
The central problem is not new, but the negative result is unexpected, and (over)

The department desires to hold the Public Oral Examination of the
candidate on Friday, May 27 at 2 P. M. in Fine 103.

Chairman or Departmental
Representative.

Before the Public Oral Examination can be authorized, it will be
necessary for the candidate to file two copies of his dissertation
in the Office of the Graduate School, and also a receipt from the
Bursar of the University for the payment of the diploma fee of \$10.
and the \$50. deposit to ensure the publication of the dissertation.
The Department is requested to notify the candidate of these
conditions.

If these conditions have been met and the desired date is satisfac-
tory, the Department will be notified that it is authorized to hold
the Examination.

the methods employed involve essential elements of originality. There are also incidental but noteworthy contributions to the other branches of mathematics, in particular, to analysis.

The Graduate School

Professor S. Lefschetz

The Graduate School

Final public oral examination.

May 18, 1938

My dear Lefschetz:

Your Department is hereby authorized to conduct the final public oral examination of Mr. Alan Mathison Turing in Room 103 Fine Hall at 2 o'clock Friday, May 27, 1938.

Sincerely yours,

February 23, 1937

My dear Mrs. Turing:

Your recent letter concerning your trip has been received. I appreciate fully why you wish to give me the information which your letter contained, and I appreciate your doing so. It is not necessary for me to add that I hope it will not be necessary for me to use it.

We have enjoyed having your son at our house from time to time. Today he gave me a copy of his paper which has just appeared in the Proceedings of the London Mathematical Society. Professor Church speaks very highly of it.

We were sorry that we were unable to see you when we were in England.

With cordial greetings to Mr. Turing and yourself, I am

Very sincerely yours,

Mrs. J. M. Turing,
8 Ennismore Avenue,
Guildford, England.

May 18, 1937

My dear Mr. Vice-Chancellor:

Mr. Alan Mathison Turing informs me that he is making application for the Procter Visiting Fellowship to Princeton for next year. No doubt he will have members of our staff who have been in close touch with him write to you and give you an estimate of the quality of his work. I have seen him a number of times. From this experience and what I have learned from those in residence in the Graduate College I think that his personal relations here have been highly satisfactory so that, if after considering the other applications you decide to nominate him, we will be very glad to receive him. However, I do not wish you to interpret this letter as in any way suggesting that he be appointed in preference to any other candidate.

Sincerely yours,

Dean of the Graduate School

The Vice-Chancellor,

REPORT ON EXAMINATION IN
FRENCH AND GERMAN

EXTRACT FROM UNIVERSITY REGULATIONS

No student intending to proceed to the Doctor's degree who at the end of his first year of graduate study, provided this shall have been taken in Princeton University, has not shown by oral examination that he is able to use either French or German satisfactorily shall be eligible for readmission. No student intending to proceed to the Doctor's degree who at the end of his second year of graduate study, wherever taken, has not shown by oral examination that he is able to use both French and German satisfactorily, shall be allowed to proceed as a graduate student in Princeton University in candidacy for the degree of Doctor of Philosophy. Opportunity for examination will be provided in October and also in May. Whenever possible the student should choose the earlier date for his examination in French and German.

This is to certify that on May 20, 1937
(Date)

Mr. A. M. Turing

was tested in his reading knowledge of German
(Language)

and that he satisfactorily sustained this test.

July 8, 1937

My dear Mr. Vice-Chancellor:

Your letter containing the nomination of Mr. Alan
Mathison Turing as Jane Eliza Procter Visiting Fellow for
the academic year 1937-1938 has just arrived. I am pleased
to accept the nomination and will notify Mr. Turing to this
effect.

I wish to express my appreciation of what you have done
in this connection.

With cordial regards, I am,

Sincerely yours,

The Vice-Chancellor,
University of Cambridge,
Cambridge, England.

July 8, 1937

My dear Mr. Turing:

I am happy to inform you that on nomination of the Vice-Chancellor of Cambridge University you are appointed Jane Eliza Procter Visiting Fellow for the academic year 1937-1938 for resident study in the Graduate School of Princeton University. The fellowship carries with it free tuition, a suite and meals in the Graduate College and \$1,300. The University opens on Tuesday, September 28th, and it is desirable that you arrive here by that date. This letter should be sufficient evidence for the American Consul of your appointment as Procter Visiting Fellow in Princeton University.

Looking forward to seeing you in September, I am,

Sincerely yours,

Mr. Alan Mathison Turing,
8 Ennismore Avenue,
Guilford, England.

August 4, 1937

My dear Mr. Turing:

I am happy to inform you that on nomination of the Vice-Chancellor of Cambridge University you are appointed Jane Eliza Procter Visiting Fellow for the academic year 1937-1938 for resident study in the Graduate School of Princeton University. The fellowship carries with it free tuition, a suite and meals in the Graduate College and \$1,500. The University opens on Tuesday, September 28th, and it is desirable that you arrive here by that date. This letter should be sufficient evidence for the American Consul of your appointment as Procter Visiting Fellow in Princeton University.

Looking forward to seeing you in September, I am,

Sincerely yours,

Mr. Alan Mathison Turing,
King's College,
Cambridge, England.

June 27, 1939

My dear Mr. Turing:

The University Library informs me that it has received the copies of your printed doctoral dissertation. I am, therefore, writing to the Bursar, with the request that you be sent a cheque for the fifty dollars which you deposited at the time you took your final public oral examination.

With best personal regards, in which Mrs. Eisenhower joins me, I am,

Sincerely yours,

Mr. Alan Mathison Turing,
King's College,
Cambridge, England.
